Other Information

I am afraid that I do not make character or copyrighted cakes. Also, I will not copy another cake decorator's cake. I apologise for any disappointment which this may cause. I will, however, work closely with you to design a cake which is unique and personal to you.

I do not use fresh flowers in any of my designs. This is due to the number of chemicals and pesticides used to maintain the appearance of the flowers and these may seep into the cake. I can make you a display from sugar flowers, which you will be able to keep.

I am afraid that I will not decorate a cake which I have not made.
